

PAT Testers and Microwave Checkers are accurate instruments and it is important to make sure that they are continuing to measure correctly. A faulty tester could fail to pick up any faults with electrical appliances and result in passing them. To prevent this and ensure the accuracy of PAT Testers and Microwave Checkers we recommend that calibration is carried out annually.

CALIBRATION WITH LIFETIME WARRANTY – Available for First Stop Safety Testers Only

Providing your tester is returned to First Stop Safety annually for calibration a Lifetime Warranty is included. Should the PAT-IT, BattPAT, DisplayPAT or Microwave Checker fail for any reason during the period between each annual calibration simply return it to us for repair.

Note: The tester must be returned for calibration within 13 months of date of last calibration to maintain the Lifetime Warranty.

Repairs on testers whose Warranty has expired are chargeable.

We offer a Warranty amnesty too! If your unit has never been calibrated by us previously do not worry. We offer the Lifetime Warranty retrospectively as long as you return the unit to us for calibration.

PRICE BAND 1 (£65) First Stop Safety: PAT-IT, BattPAT & DisplayPAT includes Lifetime Warranty

We are able to offer added value to our calibration of the PAT-IT and BattPAT as we manufacture these testers. When you return them to us for calibration, we are able to upgrade these to the latest software and/or hardware.

COLLECTION & DELIVERY

Your PAT Tester or Microwave Checker can be collected for calibration and delivered back to you within 5 working days after receipt of tester. The cost of this service is £22.95 + VAT. Alternatively you can arrange your own delivery back to First Stop Safety. Delivery back to you is £12.00 + VAT.

Please ensure all accessories leads and adaptors are returned with your PAT tester. Also make sure your tester is packed in a cardboard box even if it is in a hard carry case. Incorrect packaging will invalidate the Courier insurance.

REPAIRS

If your BattPAT/PAT-IT/ Microwave Checker develops a fault we will repair it free of charge. Repairs outside Warranty will be charged at £60.00 plus calibration fee.

TRADE IN OFFER

If you would like to upgrade your tester to our latest BattPAT tester then we offer you £50 off the price of the BattPAT tester. We also collect your old tester and deliver the new BattPAT fully calibrated to you at no extra charge.
