

# YOTARI & FIRST STOP SAFETY WORKING TOGETHER

## CALIBRATION OF PAT TESTERS

PAT Testers are accurate instruments and it is important to make sure that they are continuing to measure correctly. A faulty tester could fail to pick up any faults with electrical appliances and result in passing them. To prevent this and ensure the accuracy of PAT Testers we recommend that calibration is carried out annually.

### CALIBRATION COSTS

Because of the varying complexity of PAT Testers we have four price bands for calibration. These are outlined below.

#### PRICE BAND 1 (£55)

#### First Stop Safety: PAT-IT & BattPAT

We are able to offer added value to our calibration of the PAT-IT and BattPAT as we manufacture these testers. When you return them to us for calibration, we are able to upgrade these to the latest software and/or hardware.

#### PRICE BAND 2 (£60)

**Parker Bell:** PAC500, PB500  
**Seaward:** Primetest 50, Primetest 100, PAC 500, PAC 1000  
**Alphatek / Metrel:** SwiftPAT MI3302  
**Kewtech:** KT71, KT73  
**Martindale:** EasyPAT 1600, HandyPAT  
**Transmille:** 5080, 6080  
**Robin:** SmartPAT 3000, SmartPAT 3500  
**Megger:** PAT 1, PAT 3, PAT 32

#### PRICE BAND 3 (£70)

**Kewtech:** KT72, KT74, KT75, KT65  
**Fluke:** 6200  
**Alphatek/Metrel:** AlphaPAT MI2142  
**Megger:** PAT 2  
**Robin:** SmartPAT 5000, SmartPAT 5500  
**Martindale:** EasyPAT 2100, Micropat  
**Seaward:** PAC 1500, PAT 1000S, Europa

#### PRICE BAND 4 (£90)

**Fluke:** 6500  
**Alphatek/Metrel:** OmegaPAT MI2140, BetaPAT MI2141  
**Seaward:** Primetest 200—350, BenchPAT, Supernova  
**Megger:** PAT 4DV

### COLLECTION & DELIVERY

We can arrange for the PAT Tester to be collected for calibration and delivered back to you within 7 working days. The cost of this service is £22.95 + VAT. Alternatively you can arrange your own delivery back to First Stop Safety. Delivery back to you is charged at £11.50 + VAT.

*When using the collection service please specify the collection date and the collection point on the booking form.*

### RETURNING ALL ACCESSORIES

Please ensure ALL leads, adaptors & accessories are returned for calibration. For example short IEC leads, 110V adaptors and Earth test leads with clip. ***We will not be able to check the calibration of the testers if these are not returned.***

### PACKAGING FOR COLLECTION

All items must be securely packaged for transport. A surcharge may be added to ALL deliveries not correctly packaged. Please note that although our couriers take reasonable care to protect the packages from damage and we do have insurance cover for the parcels. ***Incorrect packaging will invalidate the Courier insurance.***
