- 6 x AA batteries

This kit is based around the Kewtech EZYPAT - a great battery powered machine which has all the features you need to carry out PAT Testing. Perfect for testing everything in offices, schools, factories and building sites. The EZYPAT has automated test sequences for Class 1, Class 2 and extension leads, with a clear pass or fail indication (red or green display) plus accurate readings on the display. An all-round great PAT Tester, supplied as a kit with all the extras you might need.
